

# Hathaway Quilters

## WORKSHOP REQUIREMENTS

~ *Needle Felting* ~

*with Textile/Mixed Media Artist: Jacqui Smithson*

4 March 2026

In this class Jacqui will be teaching the technique of needle felting which is great fun to do and easy to learn.

During the session you will create a small panel of felt with a simple image, using pre-dyed Merino woollen tops, woollen batts and other interesting fibres.

You may like to create a Spring scene with sheep, a floral display, or a bird in a tree. The choice is yours on the day. Jacqui will have plenty of ideas and images that will hopefully inspire you.

All materials will be provided which will include your felting sponge, wool, and fibres plus 3 needles. There will be extra needles for purchase on the day if needed.

You may like to bring along some embroidery threads and your sewing kits as you will be shown how to add stitch marks to your finished piece which will give further definition.

Suitable for beginners or those who have experience.
